-

Work Experience

Software Developer

Mindpath Technologies, Indore | **August 2023 – Present**

Projects

Ebotify (Next.js, Node.js)

A customer support platform specializing in:

- Developing chatbots with training and deployment capabilities for websites.
- Executing WhatsApp marketing campaigns.
- Managing multi-channel support across platforms like Teams, Slack, SMS, Twilio, Telegram, and Instagram.

Roles and Responsibilities

- Designed and developed scalable, responsive, and intuitive user interfaces using **Next.js** and **Material-UI (MUI)**.
- Implemented efficient state management solutions with **Redux** to ensure seamless application performance.
- Collaborated with cross-functional teams to integrate chatbot analytics and live chat functionalities.
- Ensured optimal performance and code quality through testing and debugging.
- Contributed to deploying and maintaining the platform on cloud environments.

Tools and Technologies

- **Frontend:** Next.js, Redux, Material-UI (MUI)
- **Development Process:** Scrum Methodology
